

## Dr. Richard Stover, United States

[Richard.L.Stover@gmail.com](mailto:Richard.L.Stover@gmail.com)

Richard Stover is an engineer and executive with more than 25 years' experience in water purification. He is recognized for expertise in desalination and brine concentration, pump and energy recovery device technologies, and reverse osmosis processes. His hands-on approach – from prototyping through commercialization and product support – has led to several successful products, processes and companies.

His experience includes:

- GP Water, LLC – Independent Consulting – Owner, 2016-present
- Desalitech – Semi-Batch Reverse Osmosis Systems – Executive VP, 2011-2016
- Oasys Water – Forward Osmosis Systems – VP Engineering, 2010-2011
- Energy Recovery, Inc. – Reverse Osmosis Pumps and ERDs – CTO, 2002-2011
- Levine Fricke (Arcadis) – Environmental Consulting – Senior Engineer, 1997-2002
- IBM – Computer Hardware – Senior Process Engineer, 1996-1998

Dr. Stover has been granted numerous patents for desalination methods and devices. He was co-recipient of the European Desalination Society's Sidney Loeb award for outstanding innovation. He has served on the board of directors of the International Desalination Association since 2011.

Dr. Stover has a doctorate degree in Chemical Engineering from the University of California at Berkeley and a Bachelor's degree in Chemical Engineering from the University of Texas at Austin.
